I am writing to indicate that I object to the proposed development.

I recognise the shortage of housing, and accept the need to increase supply, but the proposal exceeds the existing capacity of the environment and infrastructure to absorb such a huge development.

Whether long-term the site could be suitable, at least for a smaller development is a larger question, but a proposal of this scale and on this timescale is extremely ill-advised given that existing infrastructure is so over-stretched, and this is also near sites of environmental significance.
