- Your address [REDACTED]
- Your message I notice that the Draft Plan to 2045 does not do enough to protect the rights of people like me who live in the City Centre. Most of us need vehicles, electric or otherwise, to get around and the parking facilities for residents are constantly under attack with our available parking spaces being converted to residential use in the plan. Thus making the situation for residents even worse. The proposal to restrict vehicles to specific zones is utterly stupid and contravenes our human rights to access shops for essentials such as food which require vehicular access. I condemn the idea in the strongest possible terms and will consider legal action if my and other residents' rights are threatened.
