To: 

Dear Sirs,

The draft Local Plan recently released by Canterbury City Council contains a proposal which will have an extremely adverse effect on Rough Common and, in particular, the residents of Rough Common Road,   This is the sketchy proposal, at point 2.(g) of Policy SS4 – Movement and transportation strategy for the district, to upgrade Rough Common Road to take traffic away from the City Centre towards the proposed by-passes. I strongly object to this proposal, which will turn the road on which I live into a ring road, to the detriment of all who live in Rough Common.

Yours faithfully,

Jean Byers.
