

1.

Dear Sir/Madam,

Having heard last week from a resident of South Street (it was noticed that no information was forthcoming from Canterbury City Council about the plans for development of Brooklands Farm) common courtesy you would think to let the residents be affected to be informed officially?

The development, along with many others planned for our area, will destroy this lovely rural area with this huge sprawling estate, loss of prime farmland, more traffic

2.

more roads, problems with sewage and drainage (which we have now).

To name but a few.

I want it noted that my wife and myself wish to object to this nightmare development being built.

Yours Faithfully
