To whom it may concern,

We have just been alerted that there is to be a huge housing development in the fields of Brookland farm which is adjacent to our property. We would like to object to this most strongly, we bought our property 23 years ago nearly as the main pull was the wonderful view, this is now going to be ruined. Have you even thought about the impact this will have on the sewage waste (already has to be pumped out to sea), and trying to get a Dr's or Dentist appointment now is bad enough.

and what about the traffic implications, and we understand that there are to be retail outlets, yet another death sentence for our amazing high street shop. We

emailed you not that long ago and was told that there was nothing to be submitted for planning, yet here we are with this development plan.

The noise and light pollution will be unbearable. The demand for water will be much higher we already have had a shortage this summer. Then on the other end there is flooding problems as we not so much on our property but the fields & roads regularly flood where will all this excess water go. We strongly hope you will reconsider these plans.
