Rough common road plans

My name is Andrew Collyer and I live at [REDACTED]

We moved to Rough Common 1 year ago as it was a lovely peaceful area.

I am writing concerning the proposed plans for the canterbury zones and ring road through Rough Common.

Firstly the plans for all of Canterbury are terrible. It will only promote longer traffic journeys and more pollution. This is not going to be good for our community. The roads that are suggested for the ring road are not set up for this type of traffic and given the woods location there can't be scope to widen. The parking can't go as residents rely on this!

Secondly this will simply ruin our lives. We live directly on the road and the increase traffic will cause noise pollution and make the area unsafe for my children. We will walk them to school and this will soon become unsafe if the plans go ahead which will cause us to drive and further adds traffic at pollution.

I am surprised it can be legal to make changes on this scale to a peaceful area which would clearly ruin the location, whilst cause anxiety and distress but also financially damage the owners of the properties there. The value of our homes would drop and to get away from the terrible plans we would be forced to move into smaller homes after spending many years saving for what was our dream home and area. To be frank this is causing me and my wife huge emotional distress and anxiety.

The plans cannot go ahead and I would expect there would be huge legal action if it does. I know I would be for and actively oppose the plans from a legal standing.

Please don't ruin my family and our local communities lives with a plan that will not achieve what it believes it should.

Kind regards

Andrew
