I object to this proposal and would raise the following in support of my objection:-

Loss of greenspace and more agricultural land also lost.

Many years of major disruption to an area that residents have paid a premium to live in peace.

Huge additional sewage issues and the water companies have already failed miserably,

This is an area which is substantially made up of non porous soil and frequently floods.

SE Kent is known to be very dry and this will prove to be an enormous problem in the decades to come.

Severe traffic and noise pollution would be an obvious consequence.

Regards,

John Turner
