I write to pass comment on Chapter 1; Spatial Strategy for the District 2045. Policy SS4
Specifically, Upgrade at the A2 junction at Rough Common Road

Although there is no specific mention that traffic will be diverted from the A2 along Rough Common Road, the implication is there. I protest strongly about this idea because

1. Rough Common as a village would be destroyed,
2. there would be an enormous increase in atmospheric pollution in the village,
3. the road is unsuitable for upgrading, being very narrow in parts,
4. where would the traffic be directed to once it had reached the junction with the A290? Down into Canterbury by a much narrower road than the A2 from which it was diverted? This makes no sense.
5. The longer scientific view is that the time of the private car will be over by 2045. This does not seem to be in the plan.

Yours Faithfully,

[Professor A.V. Chadwick, B.Sc., Ph.D., FRSC](#)
