This development is completely unacceptable in its present position and scale. Traffic on the Chestfield roundabout is already at a dangerous level. Exiting Maydowns road and entering from the Thanet way is hazardous due to the speed and amount of traffic. Many 'near misses' also occur because of insufficient or incorrect signalling. The traffic from this development would all exit onto the Thanet Way - already heavy with traffic at peak times. Also there is already extra traffic from the new Costa cafe situated at this junction. More loss of 'greenfield' is also a major concern. These green spaces are essential for air quality and wildlife and this site provides at least some protection from the heavy traffic.
