Good afternoon

Please take this email as our objection to the above development. It surely is common sense to anyone to see the area slowly but surely being destroyed . Used to be a nice green space area . Now building along Thanet way whitstable heights and on field grassmere land . Utilities already cannot cope . Drainage being obvious one . Schools and doctors already bursting . We moved to get away to quiet coastal area with space . Anymore building work is ruining the area . Greed is overtaking the needs of local residents who live in the area . The Chestfield roundabout is a prime example . McDonald's, KFC now we have Costa Coffee drive through . More traffic and rubbish . We live in share and Coulter rd , regularly remove kfc and McDonald's rubbish from garden . Chestfield used to be a quiet area now rat race into Canterbury. The railings are constantly being damaged by boy racers who disturb nightly speeding around . We do not need anymore housing , just to tick your box of government targets . I wonder whether the people pushing for this development actually live in area ? I doubt it

Regards

Sue and John Mayell
