To whom it may concern

I am deeply concerned at the proposal to build on the farmland and orchards in Wincheap, and ask that you please put a stop to this. The beauty of this area in a residential area of Canterbury is a real treasure and I am shocked that the building of 2000 houses is even being considered. I enjoy walking and running here and I know many of my friends and family do too, not to mention the devastating effect to wildlife.

Please, reconsider these plans.

Kind regards  
Ben
