Local PPlan Consultation for Merton Park

Putting up yet another vast housing development on prime agricultural land is just absurd. Not only that but this area isn't suitable for a development of any size. Narrow country lanes will never cope, nor will the existing wider road network. One look at the traffic already clogging Wincheap and Nackington Road/Old Dover Road is enough to know that. Perhaps more importantly though this area is used extensively by both local people for recreation and relaxation. We're told to do more exercise, the benefits of walking and enjoying the fresh air and countryside are well known but plans such as these take the ability to do so from the doorstep away. Instead yet more car journeys will be made in order to find green, clean space! Furthermore the diverse fauna and flora will be destroyed. Where do birds, mice, bees all relocate to? Do you even care. I hope you do and will reject these proposals completely. Canterbury is being annihilated by these totally inappropriate schemes. Please say no for once. Thank you.
