Subject: Brookland Farm, whitstable/chestfield

Dear CCC,

I wish to register my objections to the above development on several counts.

1. Surely there is enough proposed development in the whole of the Canterbury District to fulfil the council's need to reach the government housing targets.
2. The proposed housing will not be local houses for local people. They will be snapped up by speculators and investors.
3. So many planning applications include schools, doctors surgeries etc yet they never materialise.
4. If it were not for the sea Whitstable would be totally encircled by new housing estates.
5. With so much current pressure on the waste water system there will inevitably be more polluting by Southern water.

Fresh water will also become a crisis if we continue to see rising summer temperatures.

All in all this is a very detrimental housing scheme for existing residents. I object most strongly.

Yours faithfully

Carole Phillips, [REDACTED]
