My partner & I would like to lodge our objections to the above proposal for the following reasons.

1. Increased traffic congestion, on an already busy semi-rural road.
2. Air pollution, in particular the impact on local school children & wildlife in the local nature reserve (Blean Woods).
3. Safety, with regards to school children of which there are many, as there are a high density of educational institutions within this area.
4. Noise pollution, due to additional traffic.
5. Increased travel times depending upon which part of the city residents are travelling to.
6. Adverse impact on house prices/would become a less desirable area to live in.

Yours sincerely,

Beverley Hubbard & Steven Aslett
