

Response to draft local plan
to 2045

R15 and R16 Littlebourne

enough is enough we are loosing our beautiful villages, our land we grow fruit and Veg, its affecting our wild life. Many of the villages will soon be joining up. we need to be sorting out the water, sewage, Doctors, Schools hospitals and Roads. we should be looking out for the elderly, building one bedroom bungalows or warden assisted places, we know if they get the go ahead to build on The Hill it will not stop there, Aspinall ~~is~~ has got rid off the elephants, they will then build right through to Bekesbourne lane. How many more house can we put up with in this area and surrounding areas, we use to be the Garden of Kent we will be soon be the Concrete of Kent. People dont want anymore houses built, were are all these people coming from??
