Dear Miss Asimaki,

I am resident in Fordwich and have a long-term medical condition which limits my mobility. I am reliant on the car to get around. The council's plan to block off Moat Lane and zone Canterbury would have a significant detrimental effect on me because I cannot walk or cycle distances or use public transport without support.

The air pollution caused by a bypass running next to Fordwich would also exacerbate my existing condition.

I am also deeply concerned about the impact these plans would have on the local ecology. The Fordwich area is a haven for wildlife and this would be devastated by the massive construction work and the destruction of historic woodlands, fields and flood meadows.

I hope very much that these plans will be dropped.

Yours sincerely,

Kathryn Wilson-Sharp
