Subject: URGENT Brooklands Farm South Street Whitstable planning application

To: <policy@canterbury.gov.uk>

OBJECTION TO THE ABOVE Application

I strongly OBJECT to the plans put forward to the huge mixed residential & commercial development on Brooklands Farm, South Street, South Tankerton.

Reasons put forward below.

Whitstable is a charming full of character small fishing town with a beautiful harbour, a high street voted in the top 10 best in the country for small shops & is world renowned for its Oysters, all of which bring many visitors & income to the town but also benefitting surrounding locations.

But it is already being overloaded with the huge new developments as at Whitstable Heights & Grassmere Pasture in progress & cannot cope with this huge new development that has been put forward. Whitstable is already providing more than the Government guide lines for areas to develop.

The Sewage situation is already overloaded & ruining our beaches & sea & has been deemed a health Hazard with raw sewage being offloaded into the sea making it unsafe for people to swim in especially children.

Our Doctors, who are brilliant, are already at breaking point with local residents already unable to get even urgent appointments, as are our dentists.

The infrastructure & highways are already inadequate & this new proposed development would cause many years of noise, pollution & congestion with the amount of heavy goods vehicles, large building equipment & extra number of staff Work force cars. Then the ongoing amount of cars of residents when the houses are finished as well as the industrial units. The damage to our roads would be drastic.

To lose this open green space would be a tragedy for the area, for people to walk their dogs or just to walk & enjoy the very few open spaces we actually have left & the necessary quality of life it affords us.

Our supermarkets are not of the huge Superstore sizes designed to cope with the large numbers of residents all these new developments will bring, it will be an undiluted nightmare just to do a weekly shop. Surely this can not happen.

PLEASE NO MORE
