Good afternoon, I would like to object to the Brooklands Farm proposal.

I object because once built on it would be a loss of our green landscape forever, it can't be replaced.

I object because it is yet more agricultural farmland that we are loosing. As we have seen with the Ukraine war, we can not produce enough for ourselves.

I object because of building work noise, heavy goods vehicles and an increase in sewage that our current system cannot cope with and therefore more sewage pumped into the sea.

I object, as there will be an increase in flooding with drainage issues already a problem.

I object as there will be an increased demand for water (already a shortage with a hosepipe ban.

I object as there will be an increase in traffic pollution, in noise pollution. The infrastructure of Whitstable and Chestfield can not cope currently.

I object as our local amenities can not cope already, so how they will cope with more patients I'm not sure.

Thank you for reading.

Yours faithfully,

Sarah Bird.
