Hi,

I would like to register my concerns about the traffic management aspect of the Draft Local Plan. It does not seem a feasible way to solve the issues as access to 'zones' would mean that smaller local businesses would have a severely restricted customer base. It would mean people were more likely to buy all their purchases in large megastores as they would not be able to easily access the smaller shops any more.

Thank you for registering this concern,

Best wishes,

Victoria Golding
