

Re: Local Plan 2020 to 2045

Proposed Rough Common Ring Rd

This seems not properly thought through.

- a) The village community of Rough Common would be destroyed by movement across the road becoming impossible. This is contrary to government policy.
- b) The construction of the road would certainly involve the loss of all our front gardens, with consequent intolerable noise levels. This would also entail the loss of our off-road parking. (See your response to proposed substitution of a 3-bedroom house for St Gabriel's Church.) There is no longer a bus service.
- c) No thought seems to have been given to access for existing housing developments (e.g. Ravenscourt Rd, Firzee Close, Oaks Park etc) as well as the RSPB woods. As you know, further developments are proposed.

I apologise for handwritten submission - my printer has broken down.
