DRAFT Local Plan

Dear Sir/Madam,

I would like to object to the Draft Local Plan. I am 11 years old and I am worried about the new roads that may get built. I am worried that it may endanger the wildlife, the environment and the health of local people. I feel a different solution is needed. The pollution in my area is already high and more houses and more cars will only make it worse. I feel that more money could be spent on walkways and cycleways. I think people should be encouraged to use their cars less.

Please do not make the changes to zones and new roads.

Kind regards,
