Below is the article from the BBC on 31 January 2023 and yet with the proposed bypass there will be the destruction of the green belt/green space/ habitats. Canterbury is too small for such a bypass and a clear waste of tax payers money. I am sure there are better solutions than creating a concrete jungle through some of the most beautiful villages and wildlife habitats

Everyone to live 15 minutes from green space or water in England under plans - BBC News

<https://www.bbc.co.uk/news/science-environment-64456455>

Some solutions:

1. Improve the bus services and lower the fares significantly.
2. Have Park and Ride services in more locations outside the city with free parking.

I really plead with you not to proceed with the bypass!!!

Thank you
Alice Thomas
