I am writing to OPPOSE the proposed development of 150 homes on land behind Chestfield Road East.

Development has been refused multiple times on this land which is just a small green area that falls behind the current roadside development of housing. I also oppose the development of Brooklands Farm which is a beautiful area of land full of wildlife.

If development goes on with all green spaces Chestfield will no longer be a beautiful place to live. We currently live in a semi rural area and this would make it very built up

This area suffers greatly from surface water and drainage issues which will undoubtedly be made worse with extra housing crammed in everywhere. Why can't we have wild green spaces around our village?

Traffic along Chestfield Road will increase hugely especially if a connection to the A2 is created down the road. There is not enough infrastructure out in Chestfield for all the proposed development. There is no proper bus service and pavements are scarce. It is not a good area for young children to be able to get to school.

Use brown sites for development!!
