To whoever it may concern.

I have many concerns surrounding the proposed building on this land and feel it would be much more of a benefit to the community as many other things.

At present the parking around this area and specifically beacon road is horrendous. My and my wife's car was crashed into just a couple of weeks ago and all my neighbours have dents from people using it as a cut through to avoid the lights. People parking on corners and yellow lines. The houses are family homes with many people have multiple cars. Imagine another 32 homes with multiple cars. Plus the extra traffic to go with it. The gardens aren't massive and a communal space would be great for all the families that have been meeting on the land. Having a great community spirit.

We already have issues with the drainage system in this road without teeing in some more poorly built systems connecting to it.

Why would building 32 homes in this space benefit anyone other than the construction company building them. 32 more houses being added to the red row and other site expanding rapidly across the countryside towards Herne meet the government quota ? .

If Herne Bay wants to be more attractive to people visiting or moving here. This could be the space to showcase the intentions of the council.

It could be used as multiple things, involving cash generating use to fund upkeep ect. Plus giving community feel and child friendly space for families to enjoy all year round.

I Hope things will be considered on a human level, rather than a cash benefit level for fat cats just wanting a slice of extra cake for their own benefit.

Let's be real , Herne Bay needs a local spirit brought back.

Hopefully this is received by people it needs to

Many thanks

Robert Amos
