Hello

I am writing to object to the plans to build houses on the hockey field in Beacon Rd,Herne Bay. I feel like a Native American Indian, fighting for the rights to their ancestral lands. They did not have land registration documents to prove the land was theirs before the white men arrived on their shores.However the moral point was won!

It is so with the plot of land in Beacon Rd, that land was left to the town for recreational purposes, it is the oral tradition of the town. You know this!

The documents confirming the bequests were supposed to have been destroyed in a fire! That does not give you cant blanch to ignore the oral history of the town , who know that that land was left to the town.

It is theft!

I hear complaints about the youth running ammock in the town. It is your duty to provide a solution to this. Giving the youth a place where they can go to engage in sports, may be an enabling place where they can go to , rather than to roam about the town. I realise this idea will require investment, but aren't our youth worth it?

There are other ideas for the use of this land, that would not involve investment. I am sure other arguments have been put before you.

Whatever happens, you cannot STEAL this land from the town, it is immoral!

Yours L D Faux Bowyer
