Section C12

I approve the deletion of section C12 from the draft local for the following reasons:-
Any development on the University land is wholly unsuitable and unsustainable.
The land is at present a green space buffer between the City and Bean/Tyler Hill providing a green lung.
Traffic generation would over burden the existing road system.
I oppose demolishing of an very good rated Blean School.
The sewerage system is already struggling to cope and it would be unable to cope with this additional housing.
I am in favour of the proposal for a Bio plan for the area.
The council must look at high density housing to meet housing needs which is very sustainable.
I oppose the loss of agricultural land which is require to help feed the population of this country on a sustainable basis.
