Hello I'm not sure if went through alright as I didn't get a reply about my concerns about the possible 900 space park and ride . And the possibility of you removing are physical and social space from us.

I have lived in Thangitoin my whole life same with family and my friends. That rec isn't a piece of land it's our childhood the place we learnt who we was as people ,the type of people to hang out with .The undying spirit of community and British culture. And are endless love for sports . Even talking about music to are memories . We all have built close bonds with one enough to neighbours to families . The thangitoin

Community needs that area to function . That rec hasn't just taught us about sports it's taught us the key values to life . Thangition has a sigma about it some say it's bad some avoid it but me living here my whole life I've never had a issue nor my parents my mother and father have been sitting down that park for 25 years .What about there memories?

Where will we go when this is built?

Sit round a car park we can't it will give thangtion a bad reputation we will be deemed as troublesome

We are not we clear after are rubbish.

We respect one another .

We are kind

And respect everyone to children to elderly to resources workers the people that have been there for us since a young age .

The people that have become family other the years

And why will this effect us because of the potential changes you may make

Because that field has seen every single person grow and develop that fields seen good and bad . That's our social area not only for youth for older people places we walk are dogs the place we can see wildlife from watching the beautiful sunset to playing in snow in winter it's our place to play sports and socialise .

Your not only effecting humans what about the dogs ?

You will kill all the trees the area qualities will be shocking a basic human need

Your killing the wildlife's home just like your doing to us

Why do you need to do this 40 percentage of the park and ride is used
So why remove are cherished social and sport space for that .

It may seem like a piece of land to you but it's our child hood and memories you will be destroyed
and everyone in thangtion could agree with me

We are the future of thangtion giving it a

Good name . We all actually all want are children to grow up her because of the lovely community
we have here the help we get

And you want to destroy it all

Many thanks Ruby
