Re. The deletion of the proposal to develop housing on the land north of the University of Kent (Policy C12).

As a local resident I would like to register my support for the removal of the proposal to develop this area for housing. The technical and practical difficulties presented by the original planning proposal are and will remain insurmountable, in particular with regard to the lack of road and other necessary infrastructure and the poor potential for the future development of the same.

The proposed demolishing of the outstanding rated Blean Primary School as a necessary measure, simply to allow access to the site, surely indicates just how inappropriate and lacking the road infrastructure in this area is. The impacts of such a disproportionately large residential development relative to the size of the surrounding villages and current capacity of amenities and public services, would be hugely detrimental - and irreversible - affecting both the social and natural environment - both within and well beyond the actual site itself.

Thank you for your time in reading this.
