

Dear Sir/Madam

I object to the conversion of Thanington recreation ground to a 900 space park n ride.

Preservation of green spaces remains a core priority for Thanington , as these areas provide vital environmental and recreational for our residents. The proposed location is particularly valued for its ecological significance, community use, and contribution to local biodiversity.

I use the grounds regularly for walks to improve my mental health, which is so important in our daily lives and in the media.

Additionally, concerns are raised regarding potential long-term environmental impact, and loss of public amenity.

While I recognise the growing need to enhance transportation infrastructure and ease congestion, I believe alternative locations or solutions should be explored—ones that do NOT compromise our LIMITED and increasingly important green areas.

Please acknowledge my concerns and objections through acknowledgement of email.

With Regards

Carla Pereira
