Good morning

Once again I can not believe how Canterbury Council can be so reckless with their residents lives.

Wanting to build on Thannington Rec when it is the only green space in the area. This is used by everyone in the area and from outside of Canterbury as well.

You are recklessly removing all green spaces in Canterbury where people can meet, play, take their dogs for walks and let their children run around in a safe environment.

Not all people have cars and can take their dogs on journeys to find some space to let their dogs run around again safely.

To take away this space is going to have a high impact on those with mental health issues meaning there will be more strain on doctors surgery's which there are very few of. The vulnerable, those with young families and the elderly who use this area..

This is not to mention the trees that actually help our environment to replace it with a park and ride which damages the environment. There is already a huge park and ride build it on the existing site.

You should have thought about all of this before you allowed all of the houses to be built on Cochrane Road, another place that was used by the community which Canterbury Council took away with no regard to the residents, along with the new rat run you have created between Cochrane Road and Brett's roundabout.

Who am I? A very concerned resident who walks my dogs at the Rec every morning at 5 am, yes even when it is dark it is a safe place to be. Where I meet other dog walkers and have a chat with them. Sometimes this is the only contact I have with other people which helps my mental health.

I SAY NO TO MORE CONCRETE KEEP OUR OPEN SPACES THERE ARE VERY FEW OF THEM LEFT

HANDS OFF THANNINGTON REC
