I am responding to the proposed deletion of land north of the University of Kent (Policy12).

I agree with the deletion of the policy C12 on the grounds that the development of the area north of the University of Kent would severely impact on the local road network, the cost effectiveness of demolishing and the rebuilding of Blean primary school and the destruction of ancient woodland.

The loss of ancient woodland and walkways north of the University would particularly affect me personally and many other local and visiting devoted walkers and I would object to any future proposals to develop this area. The quiet countryside facility should be considered an important necessity in today's modern lifestyle for the health and mental well-being of so many people who use the location on a daily basis.

I thank all those committee members who have realised the importance of deleting policy C12 for development of the area north of the University.

Alan J Taylor
