Hello there

I would like to record my objection to the proposal to concrete over the recreation ground so it can be used for storage of cars .

This is our only open space and is vital for our mental and physical well-being ; the many trees help to clean the air to maintain public health , and the sports facilities are the only ones accessible to residents without cars as we have such a limited bus service .

Please can I ask why you are not considering sites within the Cockerling Farm industrial site for a park and ride - this would keep idling cars away from the A28 -or within the space on the Saxon Fields development which would also keep cars away from the A 28 ?

Thank you for considering this and I look forward to your reply .

Kind regards

Margaret Gurr
