Dear Sir/Madam

Regarding the proposed development of Golden Hill I wish to address the following concerns - There are already several new development's along the Thanet way which has taken so much of the green space !.. And the houses are STILL not sold More building will effect so many factors including More traffic More drainage problems More sewage More green space disappearing altogether Bogshole lane isn't built for more through traffic , the bridge down the lane has had to be repaired countless times and was shut altogether this year for More repairs ! The entrance into golden hill again isn't built for further demand of heavier traffic , large vehicles and the disruption it will cause to current residents .

The surrounding roads in and out of whitstable will be even worse than they are now ! Our safety is paramount and the extra traffic and footfall would be accountable to all sorts of problems .

Please take these concerns seriously and really think is this the best for our small town ?????

Regards
Sally Boyton
