Hello

I am responding to the question of the proposed deletion of land north of the university of Kent, Policy C12. I fundamentally agree with the technical reasons, in particular the impact on the road network as I live in Blean Hill, and already struggle to depart off my drive without sometimes a lengthy wait. In addition the destruction of the ancient woodland would adversely affect the aesthetic view from my home, which was the primary reason I bought the property in the first place.. I feel the loss of the old part of Blean School would be a travesty, not withstanding the cost of its demolition and rebuild as well. I cannot foresee any different proposal for a huge amount of housing that wouldn't affect the overall feel and appearance of the village.

I think the alternative plan of a bio park would not only hugely enhance the area, but create a lovely environment close to the city centre, not only for locals, but tourists as well.

I would personally like to thank the councillors for taking the time to listen to our concerns.

Kind regards

John Barron
