Thank you so much for giving me the opportunity to thank you for scrapping the plan to build 2,000 houses in the Blean/Tyler Hill area.

The roads which serve these two villages are already inadequate during the rat run morning and evening , and they would not have coped with the extra traffic.

I would like to add that the same would apply to any future large scale developments.

I hope you will look with constructive interest at the suggestions for a Bio Park Development, which would answer many of my concerns for farm land , wild life and the general environment.

Thank you for listening to local opinion, and for working hard to prepare this historic area for the future.

Susan Sullivan
