I personally find it outrageous that the thanington recreation centre is under threat of being transformed into a park and ride.

This facility is used constantly and continuously by the community of thanington and the surrounding area and communities .

There are many other places that should be considered as a alternative area for this park and ride facility.

The current location of the park and ride is severely under used and has been established for a number of years.

The welfare of all the public that use the thanington rec should also be considered as it is a place of many utilities and tranquility for all the residents and users of this site.

Yet again the council just continues to ignore the people's needs and wants.

I would like the thanington recreation centre to stay as it is and be a vital resource for all those that need it and use it

Regards
Andrew smith
