With reference to the proposed development of the green space area into a park and ride facility This proposal is an utter farce to takeaway a large green space which benefits the whole community is ridiculous

The existing park and ride is already under resourced and very rarely if ever at capacity And clearly all ready runs at a loss with older people using it by parking off site and using a bus pass to get into town

The increased traffic impact on wincheap will also be horrendous also not taking into account the extra traffic lights needed congestion at present is at a standstill for almost 70% of the day.

I totally object to this development

Les Holness
