As we do not live in Golden Hill we have the same problem in South Street there is too much development which is ruining all our country side using all farming land turning into urban sprawl. We have been flooded so many times with sewage running down our drive through to back garden. Our roads cannot cope with anymore traffic it's bad enough now. This scheme is thought up by people making too much money selling all the farm land and countryside and then the houses are not sold as people can't afford to buy what as waste of time.
