I am writing to disagree with your proposal of having a development of a minimum of 20 gypsy and traveller pitches and affordable housing in the the fields behind houses on Golden Hill.

I am a single women, so the safety of the area where I live is a concern.

I feel the value of my house will decline.

There is a problem with my drainage from the man hole in my parking area, in which extremely foul smells occur, when the pump is going, particularly when it is raining. This smell from outside over powers into my house, causing my whole house to smell of rotten eggs. This has been reported many times. If this can not be rectified, how an earth could more sewage/drainage be not a problem.

More traffic, causing congestion

Open space is rapidly becoming reduced in our area

Extra demand on an already pressured water supply infrastructure.

Hayley Terry
