Good afternoon

I'm writing with regard to the proposed destruction of Thanington Recreation Ground which has hit the news. This is appalling, those who proposed it and those who are not prepared to speak out against it should be thoroughly ashamed of themselves.

These officials and councillors are well aware that this proposition will mean the end of the Thanington Resource Centre, they know it cannot function amidst the construction work of this park and ride if it is given the green light. This is a wholly heartless and crude piece of planning which will deprive the local people and those groups who use it of a vital community source.

There are other possible locations and ideas for a park and ride if those in power will admit it to themselves.

Think again, do those responsible for this want to go down in history as more infamous even than those who tried to close the Westgate Towers and build on Kingsmead Field?

The local people saw those off and can do say again to save Thanington Recreation ground and Thanington Resource Centre.

Ditch this plan please and show the Canterbury people that you care about them.

Yours sincerely

Lynette Coleman
