Firstly I would like to thank the Councillors for having listened to all the many concerns we have regarding the 2000 proposed houses to be built on The Blean. We are very grateful and hope that this can be permanently deleted from the local plan.

Our concerns are that the traffic on already very congestion roads will be unsustainable. This is an area with ancient woodland and many species of wildlife. Kent it seems is being concreted over and this is an oasis in an already very busy area which we feel needs to be preserved for future generations. We gather there may be plans to make this into a Bio Park which would benefit the local community and save fields of farm land.

We gather also that if this were to go ahead Blean school would be rebuilt at presumably a huge cost and disruption to the pupils.

This is in response to the question **Do you have any comments on the proposed deletion of land North of the University of Kent (Policy C12)**

Thank you
Claire Wain
