Good Evening

For the attention of the Consultations Team

I would like to submit my objection to the Brookland's Development including the recent proposed Policy N20 and N21.

Reasons for my objection is the additional cars, traffic congestion, pollution and risk of vehicle accidents. Plus the increase in sewage and people to the local area which already has over subscribed services such as healthcare and schools.

I also, we should no be destroying more of our precious countryside.

Regards

Ben Cumming
