Subject: Building proposals objections

You don't often get email from [REDACTED] [Learn why this is important](#)

Good morning,

I am writing to object to the building proposal plans of N20 N21 N23 and N24. We are already suffocating with the huge amount of houses already built or are being built. I am witnessing my home town changing for the worst before my eyes. Faversham and Herne Bay are also being over developed. The most noticeable difference is the amount of traffic. The other problem is the extra pressure on our health services, which were already strained. No extra provisions for the extra residents. I have personal experience of both my elderly parents lying on the floor for several hours with broken bones waiting up to 5 hours on the floor for an ambulance and then spending a horrible endless night in an A&E corridor. They are both in their nineties, it is not good enough. There are plenty of other reasons to object. More sewage risking our seawater and rivers being polluted. Need for more water, more school places, more Dentists. Loss of wildlife and green areas. I think we have got our fair share now with NO MORE please.

Sincerely
Mrs S Aune
