I am writing to object to all the planned proposals in Chestfield and other green belt areas such as East of Chestfield and Goldenhill proposals. We are losing all our precious countryside. Please think of using more brown belt developments, as lots of shops in Canterbury have closed. Use these areas to build on. The area of Herne Bay, Whitstable, and Chestfield have lost too much green belt already and the local roads, traffic can no longer bear any more developments. We get flooding in Chestfield as it is, the sewage system is already under strain, as is water supply etc. More sewage being spilt out in the seas. The local roads are also queuing to get out of village as it is. The new development of Whitstable Heights saw raw sewage running down street. The local infrastructure cannot take any more houses. They are not built for local community, but for London Boroughs overflow. We will get all their social problems. Our houses are losing value of small village in Chestfield. The doctors and dentists can't take much more and most importantly we are losing our green spaces and farmland. Where are all the wildlife going to go, and we need our green spaces to farm and to feed ourselves in the future. I object to all the proposals and feel this is downgrading our area and feel you are not thinking about the future carefully. We cannot get these green spaces back enough. This is why I object and hope you bear all these points in mind

Yours sincerely

Mrs F Ritson
