Dear Sir/madam,

I am amazed that such a development as this is being suggested in an area already being developed thereby causing even more problems in the process:-

Air Pollution due to extra traffic converging in that area.

More Sewage problems on top of the sewage problems currently in existence.

Potholes caused by all the extra traffic.

I live off [REDACTED] and have noticed the extra traffic which speeds past our road from the Thanet Way down into Whitstable increasing parking in minor roads where people can't find parking in the town.

Whats happening to our green spaces being eroded? Does anybody understand ecology? We all depend on all the species for our existence. Don't destroy these spaces!

I OBJECT TO THIS DEVELOPMENT!

Yours faithfully,

WendyAsprey
