Hi,

I am writing to say that I agree with the deletion of policy C12 from the local plan.

I have children in Blean school and Oaks nursery which would be demolished and massively disrupted if this plan goes ahead, construction work dust, noise etc all really bad for their development.

Also we live in Canterbury itself but the nice thing about the city , for me, is that it is quick to get out of the city to nature not using a car, EG using the crab and winkle which this would fundamentally change the nature of as the first miles through farmland would become an urban path. The loss of the surrounding farmland and woodland would be terrible.

Thank you,

Joshua Gregory
