Hello

Having looked at your proposed development plans for Whitstable, Herne Bay and Canterbury areas please can you advise how you propose to resolve the following issues -

Traffic congestion (it is already far too busy in these areas)

Water supply & sewage treatment

Healthcare. As you are probably aware the only A&E we have in this area is QEQM Hospital in Margate and yet you still want to greatly increase the local population and cause even more problems

Please can you give me answers to the above points and also advise exactly why we need these additional houses. You read all the time that there is a housing shortage but I don't know of anybody who hasn't been able to find a home to buy including myself who has moved 10 times in the last 30 years. Don't point me to your 'Local Plan' as that is a joke.

I really feel that public bodies like yourselves have no idea how people really feel and are totally oblivious to the real world problems. You seem to operate like puppets in a bubble with your strings pulled by an inept and pitiful government in Westminster.

I look forward to your reply

John Walker
