Dear Madam/Sir

I strongly oppose the building of 170 houses on Rattington Street in Chartham. The land should be used for agriculture and growing crops as part of future sustainability. Canterbury council declared a climate emergency years ago so it's time to put your money where your mouth is and think long term. Many studies have pointed to the fact that the UK will have difficulties being sustainable in terms of feeding the nation. There are far too many of these developments going up on perfectly good farming land for crops.

Thank you  
Sandie Choi  
Canterbury resident.
