Hello! I am responding to the question "Do you have any comments on the proposed deletion of land north of The University of Kent [Policy C12]?"

I strongly agree with the proposed deletion. The impact on the locality and environment would be huge and devastating! Much ancient woodland would be lost, enormous numbers of people [myself include] use this area for recreation and to maintain good mental and physical health, by spending time in an area of great natural beauty.

At the present time, it is more important than ever to preserve areas of natural beauty and maintain diversity of fauna and flora, these proposals are totally inappropriate for this locality.

I am very pleased that the councillors listened to the public's concerns and acted with intelligence and sensitivity.

Yours,

Mr Keith Gilbert,
