In addition the St Martins Hospital site behind the Garages will have proposed housing, so housing here would represent too much over crowded housing where green space is needed for quality of life.

It would also have a detrimental impact on very old established Trees.

I object to this proposal as Garages are Needed.

I am a Council resident at [REDACTED]  
[REDACTED]

The council required i rent a Garage to store my Motorbike Sidecar outfit for myself & my Assistance dog & needed a garage close to my flat due to my disabilities & it cannot be stored on road or directly in front of flat. I also use the garage to maintain it so it has tools workbench in it too, so am reliant on the space for that also.

What is required is the council properly maintaining the garages as there is not enough parking as it is, yet more housing is being built. Most neighbours i know want a garage but the council has stopped renting them out due to not maintaining them. They need to simply maintain and rent them.

Regards,  
Samantha Hamer
